Background/Supporting Information:

Bituminous Roadways Inc. has a contract for paving at the Fridley Water campus. During excavation and grading, staff discovered some unsuitable broken curb lines blocking the water flow. Bituminous Roadways Inc. was directed to remove the curbs and replace them with new curbs to match the drainage slope. This was not in the scope of their work and the change order was in the amount of \$6,900.00. We requested an upgraded asphalt mix in the heavy truck access areas for a cost of \$3000.00. The total amount of this change order is \$9,900.00.
